

## CONTENTS

Preface .....	iii
---------------	-----

### WATER CHEMISTRY AND POLLUTION

Characteristics of Lake Michigan water in regard to toxicity toward <i>Shigella sonnei</i> and other bacteria. <i>L. R. Hedrick</i> .....	1
Waterfowl losses on the lower Detroit River due to oil pollution. <i>George S. Hunt</i> .....	10
Chemistry of Lake Erie. <i>J. R. Kramer</i> .....	27
The Great Lakes - Illinois waterways basins comprehensive water pollution control project. <i>H. W. Poston</i> .....	57
The significance of trace elements in fresh water plankton for the identification of microstratification in lake bottom sediments with special reference to strontium. (Abs.) <i>Herman Kleerekoper</i> .....	64

### PHYSICAL LIMNOLOGY AND METEOROLOGY

Temperature, humidity and wind profiles over the Great Lakes. <i>J. P. Bruce, D. V. Anderson and G. K. Rodgers</i> .....	65
Changes in the levels of Lakes Michigan and Huron. <i>Ivan W. Brunk</i> .....	71
Forecasting Great Lakes levels. <i>Benjamin G. DeCooke</i> .....	79
Measurement of horizontal diffusion in the Great Lakes. <i>Vincent E. Noble</i> ..	85
Research on energy exchange processes. <i>Donald J. Portman, Floyd C. Elder and Edward Ryznar</i> .....	96
Littoral transport in the Great Lakes. (Abs.) <i>L. Bajorunas</i> .....	110
The hydrography of Saginaw Bay. (Abs.) <i>Alfred M. Beeton and Frank F. Hooper</i> .....	111
On the problem of large-scale wind patterns over coastal waters. (Abs.) <i>David L. Jones</i> .....	112
Numerical computation of wind tides on Lake Erie. (Abs.) <i>George W. Platzman</i> .....	113
Preliminary investigations of near-shore currents in Lake Ontario. (Abs.) <i>R. E. Deane</i> .....	115
Oscillations of water level in Lake Erie. (Abs.) <i>James L. Verber</i> .....	115

### GEOLOGY

Bedrock geology of Lake Huron. <i>Alan M. Cvancara and James C. Melik</i> ...	116
Investigation of bottom cores from north and south-central Lake Superior. <i>John R. Reid</i> .....	126

Measurement of terrestrial heat flow over the Great Lakes. (Abs.) <i>A. E. Beck</i> .....	145
Bottom surface deposits of central Lake Erie in Ohio. (Abs.) <i>Robert P. Hartley</i> .....	145
The bedrock geology of Lake Michigan. (Abs.) <i>William M. Webb and Raymond Smith</i> .....	146

## BIOLOGY

Post-glacial ecology and culture changes in the Great Lakes area of North America. <i>James B. Griffin</i> .....	147
The Naiad (fresh-water mussel) fauna of the Great Lakes. (Abs.) <i>Henry van der Schalie</i> .....	156
Extended limnological studies in western Lake Erie sponsored by the Natural Resources Institute of the Ohio State University. (Abs.) <i>N. Wilson Britt</i> .....	158
Phytoplankton in the Cleveland Harbor area of Lake Erie, 1956-1957. (Abs.) <i>Charles C. Davis</i> .....	158
Biology of Great Lakes sphaeriid faunas. (Abs.) <i>William H. Heard</i> .....	159
Food habits of some Lake Erie fish. (Abs.) <i>John W. Price</i> .....	160
A review of the invasion of the lower Great Lakes by the white perch ( <i>Roccus americanus</i> ). (Abs.) <i>W. B. Scott and W. J. Christie</i> .....	161

## LAKE METABOLISM AND PRODUCTIVITY

Investigations in lake metabolism - bacteria: Distribution and activities. (Abs.) <i>George W. Saunders</i> .....	162
Investigations in lake metabolism - photosynthesis: A modified C <sup>14</sup> technique for estimations of photosynthesis in large lakes. (Abs.) <i>Roger W. Bachmann, George W. Saunders and Francesco B. Trama</i> .....	163
Investigations in lake metabolism - photosynthesis: Chlorophyll <i>a</i> in Grand Traverse Bay with reference to its use as an index of primary productivity. (Abs.) <i>Francesco B. Trama, George W. Saunders and Roger W. Bachmann</i> .....	163
A large discrepancy between C <sup>14</sup> -based photosynthesis measurements. (Abs.) <i>Jacob Verduin</i> .....	164

## ECONOMICS

Effect on design characteristics of Great Lakes bulk carriers by physical limitations. <i>Louis A. Baier</i> .....	165
The Seaway era begins: Great Lakes overseas trade and shipping. <i>Albert G. Ballert</i> .....	177
Economic contribution of the trawl fishery to Michigan. <i>Keith D. Brouillard</i> .....	182

## RESEARCH PROBLEMS

Winter research on Lake Ontario. <i>D. V. Anderson, J. P. Bruce, U. Sporns and G. K. Rodgers</i> .....	185
The Canadian Great Lakes research program. <i>G. B. Langford</i> .....	199
Research on Lake Superior by the School of Public Health, University of Minnesota. <i>Theodore A. Olson</i> .....	202
Great Lakes Research Division, Institute of Science and Technology, The University of Michigan. <i>John C. Ayers</i> .....	205
